**Postdoctoral Position in Biomedical Engineering**

The Biomedical Engineering department in the McCormick School of Engineering at Northwestern University seeks a qualified individual for a newly available Postdoctoral Fellow position in the laboratory of Professor Mark Johnson.

A Postdoctoral position is available to do cell isolation studies and atomic force microscopy (AFM). Experience with cell culture and phase contrast microscopy required. Experience with AFM, finite element modeling and/or urothelial cells helpful.

This position is a one year appointment, with the possibility of a second year extension. This position has a competitive yearly salary of $55,000. Highly motivated individuals who possess a PhD should send a cover letter, a curriculum vitae, a brief description of their research interests, and the names/contact information of three references to:
