POSTDOCTORAL POSITION ON ENDOMETRIAL NEOPLASIA AT NORTHWESTERN UNIVERSITY, FEINBERG SCHOOL OF MEDICINE, CHICAGO, IL

A postdoctoral position is available in Dr. Julie Kim’s lab at Northwestern University in Chicago, IL. The candidate will join a dynamic research team that has pioneered microfluidic technology for the study of reproductive tissues. The project involves using 3D endometrial ex vivo models to study the influence of a PCOS ovary in a microfluidic platform. The position is available immediately.

Qualified candidates should be highly motivated and independent individuals with an established track record of success, including first author publications. A Ph.D. degree with expertise in endometrial biology, tissue engineering, or related field(s) is desirable. The selected individual must have experience with cell culture, molecular biology, and imaging. Excellent written and presentation skills are required.

For prompt consideration, please email the following items to Dr. Julie Kim (j-kim4@northwestern.edu)

- A one-page cover letter describing areas of research interests and career goals
- Curriculum vitae with bibliography
- PDF of recent publications or manuscripts ready for submission
- Contact information for 3 references
