Neuroscience Lecturer Positions 2015-2016

The Neuroscience Program and the Biology Department seeks one or more part-time lecturers to teach multiple courses during the 2015-2016 Academic Year. Fall semester needs include a 300-level advanced elective course (lecture-only) and a 400-level Senior Seminar course for neuroscience and biology majors. The spring semester need is specifically for a 300-level course in Molecular Neuroscience (lecture and two laboratory sections), a core offering in the Neuroscience major.

A highly selective liberal arts college located on Chicago’s North Shore, Lake Forest College enrolls approximately 1,600 students from over 47 states and 81 countries. At Lake Forest College, the quality of a faculty member’s teaching is the most important criterion for evaluation. The College also expects active participation in the College community.

Lake Forest College embraces diversity and encourages applications from women and other members of historically underrepresented groups.

Qualifications: A Ph.D. is required, plus previous experience teaching undergraduates. Applicants should electronically send a letter of application, curriculum vitae, transcripts, and up to two letters of recommendation to:

Dr. Shubhik DebBurman
Professor of Biology
Chair, Neuroscience Program
Lake Forest College
debburman@mx.lakeforest.edu

Review of applications will begin immediately and continue until the position is filled.
