Postdoctoral Position in Neuro-Oncology Lab | Dr. Lesniak | Neurological Surgery

Location: Chicago, IL

The neuro-oncology program at Northwestern University Feinberg School of Medicine is seeking candidates with experience in immunology/gene therapy/ or nanotechnology for one of the following jobs depending on your experience and qualifications (post-doctoral or senior research professional).

The applicant should have a PhD in immunology/gene therapy/nanomedicine and some degree of prior experience. You must be well versed in immunology, and enjoy virology, gene therapy, molecular biology, biochemistry, stem cell biology, or nanotechnology as this job involves significant work in understanding mechanistic studies as they pertain to each of these fields. Prior experience of work in each of these areas as well as experience with live animals and knowledge of imaging techniques is required. The applicant must be able to design and conduct experiments, prepare and present their work at meetings, write scientific manuscripts, and speak fluently in English.

Applicants must be US citizens, permanent residents or currently residing in the US in order to be considered for this position. Please submit a letter of interest, along with your curriculum vitae, copies of any relevant publications, and names/addresses of three references.
