Postdoctoral Position -- Postdoctoral Fellow in Neuroscience (Electrophysiology), Dr. Menichella’s Lab, Department of Neurology

Posted by: Northwestern University

Location: USA

This position is for a post-doctoral fellow to work with Dr. Daniela Maria Menichella in the departments of Neurology at Northwestern University. The subject of research is a NIH funded project to investigate the molecular and physiological mechanisms underlying neuropathic pain associated with diabetes. The perfect candidate for this position would have skills and expertise in the area of electrophysiology. The project would utilize a variety of animal models and focus of the effects of inflammatory chemokine’s in dorsal root ganglia (DRG) sensory neurons excitability. The applicant must be highly motivated and must have a proven record of high quality publications. If you are interested, please send a cover letter describing your previous work and career goals.

Northwestern University is one of the top-ranked universities in the country with a highly interactive scientific environment. The Feinberg School of Medicine known for its innovative teaching and pioneering research is located in the heart of Chicago downtown. Salary and benefits are competitive.
