Northwestern University Postdoctoral Research Fellowship
Comprehensive Transplant Center

Post-doctoral positions are available in the Comprehensive Transplant Center, Northwestern University Feinberg School of Medicine in Chicago, IL to work on NIH-funded projects on Epigenetic control of Cytomegalovirus latency and reactivation, using both human hematopoietic stem cell culture and mouse renal transplant models. Applicants must have a PhD and a record of excellence. Experience in virology, molecular biology, epigenetics, and hematopoietic stem cell biology is highly desirable.

To apply, interested applicants should send a cover letter with a brief statement of research interests, a current CV with list of publications and names and a list of references to Nazanin Salehitezangi at naz@northwestern.edu

Please visit us at http://www.feinberg.northwestern.edu/sites/transplant/ for more information about the Comprehensive Transplant Center.

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women and minorities are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.
