Placement information is captured in the TGS PhD Placement Database using graduate responses from the Exit Survey and Survey of Earned Doctorates, and updated with the help of faculty and staff after each graduation. The database is intended to capture all first placement information, as well as all subsequent placements since graduation. This summary presents the placement information TGS has captured on graduate's first placements, including temporary positions, and a section on most recent placements. Over the past 10 years, an average of 94% of graduates in have known placement information. For the 2012 - 2013 graduates, 3 out of 6 have known placements.
