Postdoctoral Research Associate – Hormone-Dependent Breast Cancer

The laboratory of Dr. Jonna Frasor at the University of Illinois at Chicago seeks a highly motivated postdoctoral researcher to conduct translational research in the area of hormone-dependent breast cancer.

A PhD in a relevant field and an outstanding publication record are required. Experience in the areas of cancer cell biology and/or preclinical models of breast cancer is necessary. Applicants must be capable of designing and conducting experiments independently, writing manuscripts and fellowship applications, and presenting their research at national meetings. Interested candidates should submit a CV and the names and contact information for three references to Dr. Frasor (jfrasor@uic.edu) by December 15, 2017.

The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply. The University of Illinois may conduct background checks on all job candidates upon acceptance of a contingent offer. Background checks will be performed in compliance with the Fair Credit Reporting Act.
