Welcome & Opening Remarks:
Scott Budinger, MD - Chief & Ernest S. Bazley Professor of Airway Diseases, Pulmonary & Critical Care Medicine

"The evolution of lung (dys)function from young adulthood to middle age"
Ravi Kalhan, MD - Associate Chief for Clinical and Translational Research; Director, NU COPD & Asthma Program; Associate Professor, Pulmonary & Critical Care Medicine and Preventative Medicine

"Regulation of Inflammation and ALI by the transcription factor, Miz1"
Cong Chen, PhD - Postdoctoral Research Fellow, Liu Lab, Pulmonary & Critical Care Medicine

"The Microbiota of the Pediatric CF Airway: What role does it play?"
Terry Laguna, MD, MS - Chief & Associate Professor, Pulmonary Medicine, Department of Pediatrics

"Pseudomonas Aeruginosa in Cystic Fibrosis: A paradigm for chronic infection"
Manu Jain, MD - Director, Adult CF Program; Director, MICU - Jesse Brown VA Hospital; Professor, Pulmonary & Critical Care Medicine

"The role of monocytes in primary lung allograft dysfunction"
Ramiro Fernandez, MD - Postdoctoral Research Fellow, Bharat Lab, Thoracic Surgery

"Unbiased identification of key drivers of asbestos-induced pulmonary fibrosis using single cell transcriptomics"
Nikita Joshi, PhD - Postdoctoral Research Fellow, Misharin Lab, Pulmonary & Critical Care Medicine

"Do Allergic Patients get Septic?"
Phil Verhoef, MD, PhD - Assistant Professor of Medicine & Pediatrics, University of Chicago

"Rapid MRSA PCR testing in pneumonia for ICU antibiotic stewardship"
Joseph Paonessa, MD - 3rd Year Clinical Fellow, Wunderink Lab, Pulmonary & Critical Care Medicine

Coffee Break — Conference Room N, Prentice Women’s Hospital

"The role of monocytes in primary lung allograft dysfunction"
Ramiro Fernandez, MD - Postdoctoral Research Fellow, Bharat Lab, Thoracic Surgery

"Unbiased identification of key drivers of asbestos-induced pulmonary fibrosis using single cell transcriptomics"
Nikita Joshi, PhD - Postdoctoral Research Fellow, Misharin Lab, Pulmonary & Critical Care Medicine

"Do Allergic Patients get Septic?"
Phil Verhoef, MD, PhD - Assistant Professor of Medicine & Pediatrics, University of Chicago

"Rapid MRSA PCR testing in pneumonia for ICU antibiotic stewardship"
Joseph Paonessa, MD - 3rd Year Clinical Fellow, Wunderink Lab, Pulmonary & Critical Care Medicine

Please enjoy lunch at your leisure

Poster Viewing Session and discussion from 1:00 to 3:00 PM
Harris Family Atrium, Prentice Women’s Hospital

Scientific Abstract Awards - Canning Auditorium, 3rd Fl Prentice
Presented by SeokJo Kim, PhD - Research Assistant Professor, Pulmonary & Critical Care Medicine
Poster Judges: Alex Yemelyanov, PhD; SeokJo Kim, PhD; Dale Schumaker, PhD; Marina Casalino Matsuda, PhD; Emilia Lecuona, PhD

Keynote Lecture
"Lung Repair Strategies in Emphysema"
Irina Petrache, MD
Wollowick Chair in COPD Research
Division Chief and Professor of Pulmonary, Critical Care, and Sleep Medicine, National Jewish Health

Reception - Conference Room L North, 3rd Floor Prentice Women’s Hospital
